

## USB2.0 Smart Card Reader

Model No.: UCR-952

### Product Features

1. Support EMV specification.
2. Based on ISO7816 implementation
3. Support Microsoft Smart Card for Windows
4. Meet Microsoft WHQL USB Smart Card Reader requirements
5. Include WDM driver to work on Windows 2000 and Windows XP
6. 480Mbps Hi-speed USB interface complies with ver. 2.0 HS standard
7. Support dual slots for higher security application
8. Support T0, T1 protocol, I2C memory card, SLE4418, SLE4428, SLE4432, SLE4442, AT88SC1608 and AT45D041 card.
9. Built-in 3.3V regulator for single 5V operation
10. Built-in PLL for USB and Smart Card clocks requirement
11. Support EEPROM for USB descriptors customization, including VID/PID
12. Available in 48-LQFP Package
13. Based on USB-CCID class, short APDU level
14. Compatible with Microsoft USB-CCID driver
15. Support 3V/5V Smart card & SIM Card (with Adapter)
